NUMBER 1153 COLORADO SPRINGS COLO, FRIDAY, APRIL 6 1888. PRICE FIVE CENTS.

RAILROAD TROUBLES.

The Deal Between the Brotherhoods and Knights.

Powderly Asked to Call his Men from the Q

Negotiations Pending with Prospects of Success

Burlington Brakemen Threaten Another Strike-down.

Complications Taken

CHICAGO April 5—Referring to the reported deal between the Brotherhood of Engineers and Firemen and General Master Workman Powderly of the Knights of Labor by which all knights in the employ of the C B & Q were to be called out the Chicago Times says this morning The proposition is still pending and a decision may not be reached for some days yet The engineers firemen and switchmen desire Powderly to call out the Knights of Labor who have taken their places on the Q and if it should become necessary also train and section hands so far as they are Knights of Labor In short they want to make the strike official with the Knights of Labor All men who strike under this arrangement are to be supported by the brotherhoods In return the engineers firemen and switchmen will obligate themselves to stand by the Knights of Labor on other roads if it should become necessary This Powderly may agree to and probably will as far as those men are concerned who took the places of the strikers but can exercise any authority over them Those propositions rest upon the result that the engineers firemen and switchmen are acting in concert Such a combination is a mystery The switchmen have promised that if they would strike on the Q the engineers and firemen would insist them on other roads when they had any just grievances This refers especially to the Lake Shore where the switchmen want to compel the employment of union men in the places of those who took the place of striking switchmen in 1886 but this effort is not to be made until after the trouble with the Burlington is settled, so it is not at all improbable that the engineers and firemen will arrange matters permanently

Preparing for a Short Order.

CHICAGO April 5—The quietude which followed the lifting of the boycott on Burlington cars was somewhat shaken today by the rumor that brakemen of the Burlington system in conjunction with switchmen by June 1 to the brotherhood were preparing for a short down along the whole line Chairman Hogo of the brotherhood grievance committee said they knew nothing about it They knew, he said the Burlington is killing or maiming people frequently through the agency of its incompetent engineers and that engineers are killed or injured on every day The attempt to swamp the Burlington with the cases in Chicago has not proved a success Paul Morton said today they did not propose to get swamped, for when freight comes in too large quantities for them to manage they declined to receive it He stated that on next Sunday the company would put on an extra train between Chicago and Denver

Rumors Denied

PHILADELPHIA April 5—Certain correspondence between George H Lust Master of the Brotherhood of Locomotive Engineers and General Manager Stone of the Chicago Burlington & Quincy was made public this morning the March Phil Lehman wrote to Stone stating that in order that there might be no unnecessary misunderstanding as to the position and policy of Vice Reading engineers and firemen now employed on the Q and those who are to be employed he would state that the men would be faithful to their duties and would continue their allegiance to their new employers On March 30th Stone wrote Lehman assuring him that the Road Officials on the Q would never be subjected to make room for anybody

Pinkerton Relieved

CHICAGO April 5—This morning the force of one hundred extra police were ordered at the Desplaines street station all instructed to relieve Pinkerton detectives who have been watching over the property of the Burlington road The police say they can do Pinkertons at all hours on the force in the city

No Extensive Fires

SAN ANTONIO April 5—The report of extensive fires in this town is unfounded The Babcock Carriage Company is burned but also H H Clark & Co Wallace Shields & Co A N Fisher & Co Lambert Holl under the Grand Central company and nearly a dozen dwellings The fire is spreading and directions do not seem to a large extent of other property The loss will probably reach several hundred thousand dollars Insurance is also heavy

The Block Island Election

NEW LONDON April 5—Full returns of today's election show that Taft received for governor 1,615 majority of Coggeshall for lieutenant governor 1,615 Rogers for congress 1,615 The suffrage amendment to change the necessary three fourths to a majority was carried by 1,615 The senate stands Republicans 25 democrats no election 5 House Republicans 61 democrats 10 Republican majority

Blaine Wealth.

PHILADELPHIA April 5—James W Draper of Kansas has received a letter from Mr Blaine in Vienna in which he says he is in Mr Blaine quite well and is greatly pleased with Vienna where he will remain for three weeks with relations and friends

No Arbitrary Removal.

WASHINGTON April 5—The Easton postoffice case in the city of Washington was brought to a close today by the withdrawal of the charges against the present incumbent Mr Brown appointed by the last administration as there were not enough members present to make a quorum Mr Brown will therefore remain in office for the present

Indications for Colorado—Warmer generally fair weather light to fresh variable winds

John A Logan son of the late senator who shot and wounded a notorious Italian striker was yesterday arraigned and taken before a magistrate at New Castle Pa He gave a thousand dollars bail for his appearance

William O Brien has begun suit against the Cork Constitution (conservative) for libel, claiming £5,000 damages

Jacob Sharp died at 9 20 o'clock last night

Four Dominion Irish emigrants sailed from Queenstown yesterday for America

General Terry was placed on the retired list of the army yesterday

Faribault Minn was visited yesterday by a heavy storm of wind and hail which did great damage to property of all kinds

Secretary Bayard yesterday received a cable from United States Consul Lewis at Tangier the tenor of which is that a satisfactory settlement of the trouble with the Moorish government will soon be reached

The Denver Republican yesterday announced the following,

Agent Moore of the Rock Island in Denver said yesterday afternoon He first knowledge he had of the movement concerning the Rock Island coming directly into Denver over the Kansas Pacific track was from the newspapers There is no contract that I know of to that effect It seems to me probable that the Rock Island might make an agreement with the Union Pacific company whereby its construction material might come over the Kansas Pacific track and so down here to Colorado Springs for use on the southwest end of the new line But it seems almost preposterous to me that the Union Pacific company should go out the Rock Island tracks from River Bend in here for passengers and freight It would be practically the same as renting half of your plant to a man and engaging him in exactly the same business as yourself and all the time he in danger of his undercutting you The contract between the Rock Island and the Rio Grande is I understand it is for the distribution of the freight brought in by the former over the latter's lines If the Rock Island should come straight on Denver it would be obliged to have better roads and show in this distribution The Rio Grande comes pretty near being Colorado in a railroad sense The Rock Island wouldn't get as much freight business with a line brought into this city as it would with its proper connections with the Rio Grande I have no expectation that a passenger or freight train of the Rock Island will come into Denver before the completion of the through road into Colorado Springs

We regret to state that the audience which witnessed the entertainment at the opera house last evening given by the pupils of the math and third institute was a very small one When the time which the pupils gave to the preparation of the exercises is taken into consideration they were very poorly repaid for their trouble The entertainment was interesting from the beginning to the close There were no delays and those who participated acquitted themselves in a very creditable manner The recitations by Professor F C Campbell and H Wolpert and the tableaux entitled the Artist's Studio and The Wedding were very favorably received The fan drill and the recitation of Hold the Fort by eight young ladies were among the features of the entertainment The three pantomimes were a source of much amusement and all were liberally applauded At the close of the exercises superintendent Ray of the institution announced that there would be several entertainments of a similar nature in the rooms of the next few weeks the proceeds of which will be applied to the purchase of a stereopticon for the use of the institution We trust that the people of this city will extend a liberal patronage to an institution which is doing so much for the education of the poor unfortunates of this state

A portion of Mr W C Bradbury's grading outfit which will soon be put to work on the Rock Island extension arrived in the city last evening and found quarters for the night at Haithaway's feed stable

WORK OF CONGRESS.

Wilson Addresses the Senate on Cleveland's Message

He Recommends Removal of the Duty on Sugar

And Makes No Objection to the Payment of Bounty

The House Wastes Another Day in Filibustering.

In the Senate

WASHINGTON April 5—A petition from the Chamber of Commerce of Portland Oregon in favor of the improvement of the Columbia river was presented and referred

Mr Wilson of Iowa then addressed the senate on the president's message He pledged his constituents and the last national platform to the reduction of the surplus by abolishing internal taxes which were not required for the economical administration of the government The receipts and expenditures of the government for the last three years the aggregate of receipts over expenditures being $100,000,000 an average of $33,000,000 per year The result thus disclosed he said presented the issue within which congress should move in the matter of reducing the revenue All senators will doubtless agree that the revenue should be reduced He pointed to the great advantages of the republican party and of the principles which could not be compromised even for a moment at the time it was first organized when it was in charge of its fathers He declared that the public land grant policy was the wrong in which the republican party had engaged to the spoliation of the rights of the people of the new states and territories and to the benefit of railroad land grant companies and speculators Mr Wilson said the farmers should demand that all after sales by them should be taken from the free list that a duty should be imposed on them whether there were any of competing articles which were wanted there was no source to look to for revenue than one which would lead to the destruction of manufacturing plants in all localities where manufactures produced cheap food and which forests and mines and quarries supplied the raw materials needed There should be an end of a policy which tended to centralize wealth in the hands of the few and to destroy the true policy which would plant in small centers establishments in every part of every agricultural state The production of pine for manufacturing articles was what was

NEWSPAPER ARCHIVE®

THE GAZETTE.

THURSDAY, APRIL 5 1888

A man was arrested and fined yesterday morning for leaving his horse unhitched on the street

The small pox patient is rapidly improving, and will soon be able to leave his present quarters west of the city

There are undelivered telegrams at the Western Union telegraph office for Mrs M Q Montgomery and G B Miller

The Denver & Rio Grande railroad have placed on sale commutation tickets between here and Denver good for ninety days Twenty rides for $20

A regular meeting of the board of trade will be held to morrow evening when the standing committees of the board will be announced

A stated conclave of Pike's Peak commandery No 6 will be held this evening at half past seven o clock All Sir Knights are cordially invited to attend

Dr Reber of this city was the owner of ticket No 11 that drew the baby Charter Oak at Wm Scott & Co s The owner of No 226 has not appeared yet

The steam fire alarm gong is now ready for service and a code of signals for sounding it have been printed and distributed in prominent places of the city

The Mozart Choral society will render the oratorio of Creation at the opera house on Friday evening April 13th A number of the male soloists will be selected in Denver

Those who attend the entertainment at the opera house this evening given by the pupils of the mute and blind institute, will be well repaid and at the same time assist a worthy object

College Howe No 4 has now twenty five members, and eight additional uniforms have been ordered for the annual parade of the fire department, which will take place in the latter part of next week

It was rumored on the streets yesterday that Mr S C Johnson who was sent to the insane asylum from this county last week had since died A denial was received from the superintendent of the asylum by his friends through the telephone last night In fact it was stated he is improving

Reserved seats for the "Uncle Tom's Cabin" engagement will be placed on sale at Bell's drug store to-morrow morning Prices of admission for the matinee will be as follows Children under 6 years old, 25 cents, between 6 and 15 years, 50 cents, adults, 75 cents. For the evening performance will be $1 00

Yesterday morning a party of twenty-three Galveston people arrived in the city in a special train over the Denver, Texas and Gulf railroad. Carriages were in waiting for them at the depot, in which they were taken to Manitou, where they registered at the Cliff house Hon James Moore is acting as the manager of the party.

A subscription list is being circulated for funds to send the children of S C Johnson back to relatives in Iowa to be taken care of. Johnson it will be remembered was committed to the insane asylum a few days ago He was without any means of his own, and his children have been left in Colorado City in a dependent condition

The first of the series of temperance meetings to be held this week by Mr C J Holt will be held in the First Methodist Episcopal church this afternoon, at 3 o'clock There will be a meeting in the evening at the same place These lectures are all free and the public are cordially invited to attend. Mr Holt has been lecturing in Colorado City for a week past

Superintendent of Construction Faulkner of the Rock Island railroad whose headquarters are in this city, has awarded the contracts for the grading of the road from what is known as the summit of the Big Sandy divide to this city Streeter & Bradbury have the contract for grading nineteen miles westerly from the summit and the contract for the remaining portion of the road to this city has been let to Carlile, Price & McGavock

The Pueblo Evening Star says "Rev S R Belk's lecture (subject Woman) was listened to by a large and appreciative audience The subject was well handled The speaker introduced many new thoughts As an orator Mr Belk is too well known to need any praise Those who failed to hear him last night missed a treat but it is hoped Mr Belk can be induced to repeat the lecture Mr Belk will deliver his lecture to morrow evening at 8 o clock at the M E church, south

The pupils of the Mute and Blind institute will give a thoroughly enjoyable entertainment in the opera house this evening It will be peculiarly interesting to children, and our grown people will have to go some distance before they find anything more pleasing and instructive The object of the pupils is to raise funds for the purchase of a stereopticon for their amusement and instruction It is their own entertainment and we trust that our citizens will appreciate their efforts sufficiently to give them a full house, and thus cheer the hearts of the unfortunate ones in our midst Some conception of the pleasure awaiting those who attend can be gained from the following programme

Chorus ... Song of the Soldier
Blind Class
The Artist's Studio ... Tableaux
Recitation
The Sun Drill
Trio ... Three Little Birds are We
The Blind Children
The Lover's Stratagem ... Tableaux
Hold the Fort ... Recitation by Conover
The Chinese Surprise ... Tableaux
Chorus ... Fast asleep
Blind Class
The Wood Sprite ... Tableaux
The Burial of Sir John Moore ... Recitation
The Sleeping Beauty ... Tableaux

Three of the gold prizes for the races at the coming Fourth of July festival are on view in the window of A G Park's jewelry store These are given by Mr Ezra Whitney as a business man is a public benefactor by his contributions to the success of the celebration The gold badges for the bicycle races are expected to be very handsome and when the medals are engraved will be well worth winning The silver cups for the pony polo races have been chosen and are now being engraved The management also offer an additional gold medal for a three mile bicycle race to be contested for by Mr Van Horn and several other Denver riders whose reputations and records are well known

REAL -:- ESTATE, -:- LOANS, -:- INSURANCE!

Special Attention Given to the Collection of Rent, Interest, Etc., and the Care of Property of Persons Out of Town.

Insurance Carefully Written in First-Class Companies Only

Losses Promptly and Satisfactorily Adjusted.

BOULDER HEIGHTS TO THE FRONT.

My success in the Real Estate business I attribute largely to the fact that I have aimed to handle only *First Class Properties*—That only properties as stated months ago with which any dealer can make both buyer and seller happy—the seller is happy because he realizes a good price and the buyer becomes he becomes the owner of a property that continually advances A man with limited means who invests in an desirable property because it can be got at a low figure *will always be a man of small means. Denver Real Estate is the best* and defy any one to bring in a single individual who has purchased Real Estate recommended by me during the past year who has not or cannot to day realize from 1 to 3 per cent on their purchase We offer no *Corner* but offer only properties that are *with the point* We are now prepared to offer the choicest lots that we have ever been enabled to with BOULDER HEIGHTS to possess all the attractions with security in object and the future Two miles from the city limits on the College Addition Not only under the immediate jurisdiction of the city but within convenient reach for domestic use and supplied with Denver water from the mountains Boulder is known to have the purest water of any city and also of the mountains that can be obtained from any of the wells in the city limits In fact this is the only location around our city that is first class and cannot be Lots with more assurance that investors will *Double in Value* at present prices within the next 12 months than anything I have ever handled, and when I say this *I say it after careful thought*

M. KENNEDY,

Real Estate Dealer, - - - - No. 9 North Tejon Street.

The Granger Land and Town Co.

Now Offers For Sale the Entire

Town Site of Granger,

EL PASO COUNTY, COLORADO.

GRANGER is situated on the line of the **Denver, Texas & Gulf R. R.**, about 18 miles northeast of Colorado Springs in the center of the best Agricultural District in Colorado The rainfall is sufficient to perfect good crops and irrigation is entirely unnecessary All the available Land within a radius of twenty five miles has been taken up by bona fide settlers and improvements are rapidly being made on all the occupied land

Granger has one of the best Town Sites in the State It commands an extended view in every direction The site is almost perfectly level, with a slight fall to the southeast **Water is obtainable within 10 feet of the surface on the entire Town Site.** The streets are all 80 feet in width and the lots are all 50x160, excepting the business lots which are 25x150 feet The town lies on both sides of the railroad **The Selected Line of THE CHICAGO AND ROCK ISLAND RAILROAD Runs Parallel with that of the DENVER, TEXAS & GULF RAILROAD through the Center of the Town, and forms a Junction with the latter at this point, and will be the Construction Headquarters of Rock Island Extension in Colorado.** Granger is destined to become an important town in the near future by reason of its location It is an Objective Point on the lines of all the Railroads now heading for the Rocky Mountains and also from the fact that it is located in a Rich and Fertile Region where good water is reached at a shallow depth It is an important Shipping point on the D T & G R R for a large section of country In the matter of business handled Granger ranks third on the line of the road

The lots will be sold on the popular Allotment Plan as follows

PRICE: $25.00 Each.

The drawing for location, due notice of which will be given will occur not later than May 1st next and will be conducted by a competent committee selected by the certificate holders The company will include in the drawing every Alternate lot in the entire town site as platted beginning with lot 1 in each block reserving only numbers 1, 2 3 4, 5, 6 18 and 19 in block 1 number 11 in block 2 numbers 1 21 and 22 in block 11 numbers 17 18 and 22 in block 12 numbers 15 and 16 in block 21 number 18 in block 22 number 17 in block 33 numbers 1 2 and 3 in block 41 and block 23

All these lots have been sold and deeded The object in reserving thus each alternate lot throughout the entire plat and selling the other at the low price of $25 when there is not a lot in the entire site but what is well worth $100 (some of the reserved lots above mentioned have been sold at this figure) is to enhance the value of property reserved by inducing the purchasers to build and improve over the entire plat After the drawing prices will be advanced on lots reserved Lots will be for sale until April 15th at the following places

THE GRANGER LAND AND TOWN CO., No. 10 North Tejon Street.

BRISTOL HALL.

After the Le Verte Social Club's Ball of last W Tuesday

The following is a list of the gentlemen and ladies who participated in the delightful german given by the Colorado Springs Social club at Bristol hall last Tuesday evening, which was led by Mr. Frank Wilson and Miss Mary Taylor, and which was in every respect a most successful affair. It was the first german ever given in Colorado Springs, and the success which attended it will undoubtedly result in many more being given during the winter season:

Misses Taylor, Wilson, Bell, Bancroft, Bennett, Bruce, Bowman, Bowers, Bowles, Bell, Bell, Bell

ADVERTISING

Rates made known on application to the office.

JOB WORK.

Facilities for Plain and Fancy Job Printing equal to the best any establishment west of the Missouri River.

All personal matter—advertisements in the paper and orders for work will please make it known at the office, where they will be received. We can not hold ourselves responsible for advertisements contained in the paper unless notice is thus given.

No orders are allowed against employes of the Gazette to the credit of our accounts.

All advertising matter for the Weekly Gazette must be handed in not later than Thursday noon.

Advertising agents are respectfully notified that we do not want any advertising from them.

R. W. GILBERT,
Manager of the Gazette.

There will be an important meeting of the board of trade to night and it should be very fully attended Mr Ehrich announced last week that the standing committees would be appointed A special committee appointed to consider the water supply will also report There will be other reports and business of interest considered

The custom of giving subsidies to business enterprises is a very poor one If these enterprises are started on good business principles, by sound business men they will go to the best place to gardless of subsidies Only weak concerns which would not be a strength to any business center pursue this policy It would be a good idea if the boards of trade in this state should agree not to offer any subsidies to any of those enterprises

Elsewhere will be found a statement of the subscriptions to the Rock Island right of way, by D B Fairley chairman This list will be scanned with interest A good many names will be missed but we trust the explanation of Mr Fairley covers most of them It will be necessary in order to raise the required amount, that some of the subscriptions should be raised Messrs Eaton and McGlovney set a good example yesterday by raising their subscriptions from five to seven hundred dollars

One of the writers to the Denver Republican has asked that paper to explain its frequent assertions that the Burlington's position is wrong and why the engineers and firemen ought to succeed The assertions have been made very frequently, but never have been backed up by any proof The answer is about as flimsy and superficial as all its articles on this subject One reason given is that the men were right because they asked the same pay that the Union Pacific and Atchison Topeka and Santa Fe are paying This is no reason at all because the circumstances may be entirely different. It would be just as reasonable, to say that a house maid in New York should get twenty five dollars a month because a house maid in Denver is getting the same The law of supply and demand the relative proportion of main and branch line, the cost of living along the lines and the length of the runs are all facts which must be considered Another reason for their being right is that the system of calculating the pay of engineers upon the mileage basis is the same that is in vogue in the vast majority of railroads in the United States This does not show that it is right or just It simply shows that they are asking for the same method of payment which is employed by most of the railroads The most of the railroads may be wrong If we were to look over the list of general officers of the Burlington line as compared with the list of officers of most of the other roads in the United States we should find that a greater proportion of officers have risen from the ranks in the Burlington than on the majority of railroads Our inference would be that the methods of the other railroads were wrong while that of the Burlington is right That system which places before the engineer a chance to be a superintendent or general manager is more in the interest of the workingman than the system which says Once an engineer always an engineer This is the best test to apply to the beneficence of the method from the workingman's standpoint The Union Pacific is quoted but practically all of its officers have been taken from other lines The claim that the Burlington is gorging dividends with enlargements to pay dividends is too contemptible to be even worthy of notice The very foundation of the statement that the Burlington refuses to pay just wages is not proved The worst reason given is that the Burlington is wrong because it does not employ brotherhood engineers As these brotherhood engineers have struck We do not see how it can help us If it has been object to employ engineers outside of the Brotherhood As the trains seem to be running, on time and the Burlington is not having the accidents which other railroads are having, the statement that incompetent engineers are hired is not sustained by the fact We cannot see any paper of respectability and reason in subjecting its readers with such lame reasoning based almost entirely on one statement of the facts

Mr Holden would be more appropriately called Mr Holdup It is about time that the Cripple Creek mining men should find out Who and what Holden is that he is now asking Pueblo to give something in addition to the Colorado Coal and Iron company's land and the twenty five thousand dollars Most sensible Pueblo people would not very wisely if they were to withdraw the proposition already made If Denver businessmen seem to have lost their heads in this business just at present Mr Holden any how is to blame He has played fast and loose with everybody he has had anything to do with Many consider that it is quite doubtful if he has ever intended to build a smelter The people who are to furnish the money are already interested in another smelter and they are not likely to build a rival concern with themselves Mr Bruman who has been very active participants in getting the proposition to this city and Colorado Coal found him out and gives his opinion of him in the last issue of the Mining Record and Rail as follows

Reformation Crystal and anyone else of last week on the new smelting to be erected by Rossis Holden and Guggenheim station was considered impossible for Mr Holden to withdraw what he had promised to do and we do so that we were misled and badly fooled notwithstanding we left open a door that editorial standing for the escape of the responsibility [illegible] Our letter of withdrawal [illegible] the word from Mr Holden [illegible] of the Colorado Springs [illegible] signed the water the [illegible] Mine Stock and Real Estate Colorado Springs board of [illegible] that the new smelter would locate in Colorado City [illegible] the matter of [illegible] the ores between Red Rock and Buxton creeks near Colorado City The people of Colorado Springs and City for the two following weeks [illegible] the presence and coming and going of members employees and the agents of the company the landing of land and other movement and were told that the Rio Grande had agreed to everything even what the Midland would not and could not grant This was evidently not so because the Midland was afterwards requested to procure certain [illegible] from the Santa Fe which the Rio would not get The 27th of March—the last day to the acceptance of the honorable offer of El Paso county expired—and no words came from the wandering smelter builders not even a voice of thanks and polite refusal which is so little and you will be shown good manners is a remedy for the absence of principles They were that very evening at Pueblo and presented to the citizens of Pueblo a proposition to build there in consideration of a bonus of $25 000 cash and other considerations which latter were previously offered by Mr A H Danforth manager of the Colorado Coal & Iron company Among these considerations was one which the Colorado Midland had been obliged to refuse unless prepared to fight other roads on that issue

THE NEW GREEK MINISTER

John Gennadius Who Has Lately Arrived at Washington

The new Greek minister has become very popular in Washington, writes F G Carpenter He is invited everywhere, and his evenings here have been a series of dinners He was received very nicely by the president and his speech in reply to that of the president has been complimented Greece sends a minister to the United State to investigate the obstructions to the importation of Grecian currants to this country Currants are the most profitable export which Greece has, and in the year 1885 she sent over $7 000,000 worth of these to Great Britain.

JOHN GENNADIUS

This Grecian minister comes of the purest of Grecian blue blood He is a black haired bright eyed, handsome young man of between 30 and 40 years of age He is tall of figure and lithe, and is one of the most cultured men in diplomatic circles. Like all of the Greeks he is an excellent linguist, speaks English fluently and never wants a word He is now stopping at the Arlington hotel, where he has a room pleasantly furnished, a desk filled with papers and invitations, and a mantel piece crowded with pictures of noted people Queen Victoria's picture stands in the center, and at the right and left of this are photographs of the Princess of Wales and Albert Edward, with their autographs written below them

This Grecian minister's name is John Gennadius and he is here on a special diplomatic mission He is the regular Greek minister to Great Britain and Holland and is one of the most popular diplomats of London The Dutch society papers delight to do him honor Vanity Fair devoted a colored cartoon to him last month, and The London World gave him a couple of pages not long ago as one of the celebrities of the British capital He has been given an honorary degree by the Oxford university and has written some books He is especially well up in Grecian history, art and literature, and his home in London contains the principal editions of the Greek classics He has here Luther's original pamphlet "Vom Kriege Wider die Turken," published in 1529 and he has an edition of Hesiod which belonged to Ronsard and which contains manuscript notes by him He has an Aesop's Fables which belonged to Queen Elizabeth and a copy of Psalms and Odes written and owned by Napoleon I His house in London is filled with beautiful pictures and rare colored sketches of Greek scenery queer carvings paintings of the Parthenon and with other curiosities and rare old books and manuscripts scattered throughout his house

One of John Gennadius' ancestors was the first patriarch of Constantinople after its capture by the Turks and his father George Gennadius was one of the foremost teachers of the [illegible] great deal to the making [illegible] of Greek independence [illegible] Greek ministers to London At first he was [illegible] but when he was appointed secretary of the legation at Washington in 1870 but before taking [illegible] post he was transferred to Constantinople [illegible] ten years later he was sent to London, and he also acted at Vienna as charge d'affaires He is [illegible] a very efficient minister He speaks [illegible] being a Greek, and this is [illegible] are to be of the [illegible] as well as the [illegible] He is making [illegible] by the United States [illegible] he adds in his [illegible] the Greeks will eat more Greek currants than they ever have before
